

Club Setup Time

TIME MANAGEMENT · HOW LONG WILL IT TAKE

Dahlia helps set up for science club. The club starts in 30 minutes. Her teacher says to finish the list if it fits. If not, Dahlia should tell the teacher what can wait.

Add the minutes and decide whether Dahlia can finish every task before science club starts.

TASK	MINUTES
Set six chairs around the tables	6
Place tool bins on the tables	8
Put goggles in one basket	5
Wipe two tables	7
Check that each station has supplies	9

Time available: 30

Answer: 35 minutes — they do not fit

Think about it: Why is it useful to add the task times before starting a job?

TEACHER NOTE

The tasks total 35 minutes, so they do not all fit in 30 minutes. A strong response shows the addition and states that Dahlia should tell the teacher one task may need to wait or be reassigned.

3andB makes printable workbooks for the same classrooms these are written for.
